

Drawing on the past yet looking to the future.

SPECIFICATION

Inspired by beautiful riches and treasures that complement and contrast.

The rich textures and colours from the special commodities shipped to West India Docks during Victorian times, influence a variety of contemporary materials used to create calm yet vibrant layers throughout the apartments.

Leather was used to create everything from simple tools to the lining of the vessels. Seashells like the chambered nautilus, known for its beautiful, coiled protective casing, were collected for decoration.

Metal, glass and timber in Aspen's apartments are seen in the hardware and details, reflecting the structure of the warehouses built to service the importing and exporting of exotic produce from afar. Feature joinery use the language of the vertical lines to reference the vernacular language of the architecture of the building. Hints of indigo blue, cardamom green and orange are inspired by the exotic cargo, while the industrial history of the area is further interpreted through the use of contrasting dark metal details and brassware.

The kitchen palette is simple and tonal, giving opportunity for warmth and comfort with complementary timbers and contrasting brassware. The use of copper bronze accents gives the space a feeling of opulence and is an additional point of interest. The concave and convex nature of the building creates geometric shapes, which provide interest through pattern and detail.

APARTMENT SPECIFICATION

GENERAL

- Interior Design by renowned Hirsch Bedner Associates and HBA Residential
- Open plan living designed to optimise views
- Openable windows to habitable rooms

INTERIOR FINISHES

- Bespoke veneer entrance door with anthracite ironmongery
- Engineered wood flooring to kitchen and living spaces
- Bespoke internal doors with anthracite ironmongery
- Neutral paint palette to walls throughout
